

UMESH BN

Bengaluru - 560064, Karnataka, India
+91 7411390819 — G - mail — Github.com — Linkedin.com

Professional Summary

Information Science and Engineering student with strong foundations in Java, Python, Data Structures, Algorithms, Object-Oriented Programming, and Machine Learning. Hands-on experience building AI-powered applications, full-stack web solutions, and real-time systems using TensorFlow, Streamlit, JavaScript, and MySQL. NPTEL Elite certified by IIT Kharagpur and IIT Madras. Passionate about software engineering, scalable systems, and problem solving.

Technical Skills

Languages: Java, Python, C, JavaScript

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

AI/ML: Machine Learning, Deep Learning (CNN), TensorFlow, MobileNetV2

Web: HTML, CSS, JavaScript, Streamlit, Leaflet.js

Tools: Git, GitHub, MySQL, VS Code, Jupyter Notebook

Projects

Fake Currency Detection using Deep Learning TensorFlow, MobileNetV2, Streamlit

- Developed an image classification model using transfer learning to identify genuine and counterfeit Indian currency notes.
- Built an interactive Streamlit application enabling real-time image upload and prediction.
- Optimized inference workflow and confidence-based prediction.

Real-Time Audio & Video Call Translation System Python

- Built a multilingual speech-to-speech translation system with live subtitle generation.
- Integrated speech recognition, translation APIs, and text-to-speech.

Smart Campus Navigation System Leaflet.js, JavaScript

- Developed an interactive campus navigation platform with GPS-based routing.
- Implemented shortest-path navigation and responsive UI.

AI-Based Smart Waste Classifier TensorFlow, Streamlit

- Developed a deep learning model to classify waste into multiple categories.
- Built a real-time web application with disposal recommendations.

Achievements

- 1st Place – Rapid Code (Nivora), Department of AI & DS, SJC Institute of Technology (2025).
- 3rd Place – Inter-College C Programming Contest, CBIT Kolar (2025).
- Participant – CICADA 24-Hour Hackathon, Atria Institute of Technology (2025).
- Participant – GreenMind Hackathon 2025 (Sustainable AI).
- Participant – HackSpark 8-Hour Hackathon, SVCE Bengaluru (2025).

Education

Bachelor of Engineering, Information Science and Engineering

SJC Institute of Technology

Expected Graduation: May 2027

CGPA: 8.30/10

Certifications

- NPTEL Elite – Programming in Java, IIT Kharagpur (2026) – Score: 93%.
- NPTEL Elite – Programming, Data Structures and Algorithms Using Python, IIT Madras (2026).

Relevant Coursework

Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Artificial Intelligence, Machine Learning.

Areas of Interest

Software Engineering • Java Development • Python Development • Artificial Intelligence • Machine Learning • Full Stack Development
