👤 Umesh BN

PROFESSIONAL SUMMARY

Enthusiastic and dedicated fresher with hands-on experience in programming and project development. Quick learner with strong analytical skills, seeking an entry-level opportunity to contribute to a dynamic tech team and grow professionally.

CORE SKILLS

- C • Python • Java • Java Script • MySQL • Data Structures & Algorithms (DSA)
- Machine Learning (Basics) • Deep Learning (CNN) • Git & GitHub • Problem Solving • Teamwork
- Communication

PROJECTS

Fake Currency Detection using Deep Learning

Developed a web-based application using TensorFlow and Streamlit to classify uploaded currency note images as real or fake using a MobileNetV2 deep learning model.

Real-Time Audio & Video Call Translation System

Developed a real-time multilingual audio and video call translation system using speech recognition, translation APIs, and text-to-speech, with live subtitles and voice output.

Smart Campus Navigation System (SJCIT)

Built an interactive smart campus navigation system using web mapping (Leaflet.js) that displays campus buildings and provides real-time route guidance and live user location for easy navigation within the college campus.

AI-Based Smart Waste Classifier

Developed a real-time waste classification system using deep learning and Streamlit to identify waste types from images and suggest eco-friendly disposal actions.

ACHIEVEMENTS

Achieved 3rd Place in Inter-College C Programming Coding Contest held on 16th April 2025 at C Byregowda Institute of Technology (CBIT), Kolar.

Secured 1st Place in “Rapid Code – Nivora ”, a competitive coding event organized by the Department of Artificial Intelligence & Data Science, SJC Institute of Technology, on 27th September 2025.

Participated in the 24-Hour Hackathon (CICADA 2025) organized by the Department of ISE & CSE (DS), Atria Institute of Technology, as part of the CICADA Inter-Collegiate Tech Fest (7–8 November 2025).

Participated in the GreenMind Hackathon 2025, contributing to innovative solutions in sustainable AI and responsible technology.

Participant in Hackspark 2025, an 8-hour hackathon organized by the Department of CSE-AI, Sri Venkateshwara College of Engineering (SVCE), Bengaluru, held on 13th May 2025

CERTIFICATIONS

Rapid Code (Nivora) – 1st Place — Department of AI & Data Science, SJC Institute of Technology

Inter-College C Programming Coding Contest – 3rd Place — Department of CSE, C Byregowda Institute of Technology (CBIT), Kolar

CICADA 2025 – 24-Hour Hackathon — Department of ISE & CSE , Atria Institute of Technology

GreenMind Hackathon 2025 — Green Computing Foundation

EDUCATION

Bachelor of Engineering in Information Science and Engineering

May 2027

SJC INSTITUTE OF TECHNOLOGY

GPA: 8.30
